

VisAM Win32

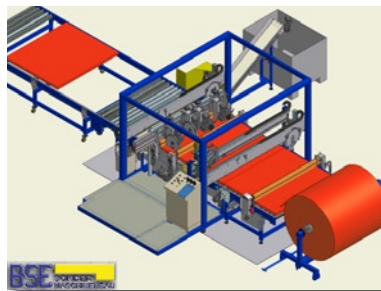

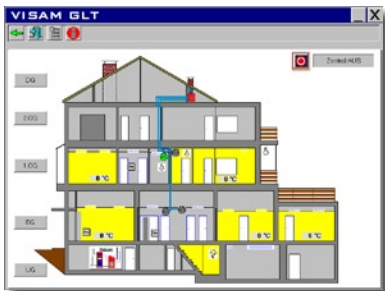

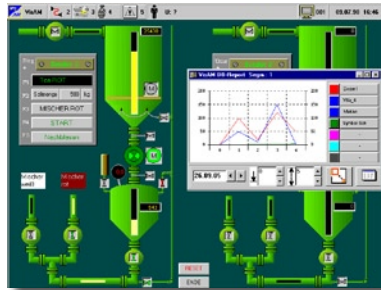

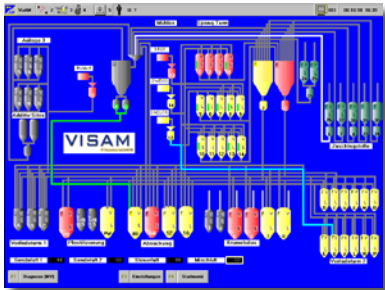

Process visualization for Microsoft Windows® 95/98/NT/2000/XP

Artikel-Nummer:

VIS-VW32-x

FEATURES:

- Handling, monitoring and steering of processes
- Messaging system with text, pictures and accustical signals, including messaging statistics
- HTML-Service-Interface for visualization over inter- or intranet
- Message dispatch by SMS, fax or email
- Logging of process data
- Recipe administration in up to 16 levels
- Access safety device and user administration
- Support for multilingual applications
- Integrated script language
- Huge symbol library
- Powerful report function
- Modem support
- Support for Multimedia

Industrie Computer 1

Panel Computer 2

Industrie Displays 3

Medical Computer 4

Automation 5

Software 6

Support for all important standard interfaces:

- DDE, OPC, TCP/IP
- Driver for all important remote systems e.g. SPS, DDC, CNC, robot etc.
- Databases with ODBC access
- Data exchange with all Windows-based applications

The intuitive all-in-one system for all kind of applications.

Function:	VisAm Win32 Light	VisAM Win 32 PRO+
Images per Project	8	9,999
Container total / per image	99 / 10	99 / 10
Variables (field) / image	2.048	4.096
Process variables (size of VDF) x 16 bit	2.048	65.536
Process variables internal (for script-applications) x 16 bit	63.488	327.680
Symbols per project (editable symbol library)	9.999	9.999
Editor and documentation in german (and english)	yes (yes)	yes (yes)
Quantity of languages (for multilingual applications)	3	3
Ingegrated script language (VB Script) / Quantity of script applications	yes / 1	yes / unlimited
Max. amount of characters for script applications	1.000	unlimited
Encryption of script applications with password protection	yes	yes
HTML-Service-Interface for visualization over inter- or intranet	no	yes
Touchscreen, mouse or keyboard control	yes	yes
Recipe levels (load, safe, delete)	16	16
Max. size of recipes (in words, 16 bit)	2.048	4.096
Max. quantity of recipes	unlimited	unlimited
Message manager (dispatch by SMS, fax, email or network)	no	yes
Acoustic messages	32.767	32.767
Picture messages	32.767	32.767
Max. amount of messages (text) in message system / simultaneous	4.096	4.096
Message logging (ASCII file and / or printer)	yes / yes	yes / yes
Message buffer for the last 250 messages (Message statistics)	yes	yes
Log levels	16	16
Max. file size for logging (in words, 16 bit)	2.048	4.096
Editable forms for logfile readout	yes	yes
Database report (display and documentation of logfiles)	yes	yes
Logging to ASCII files (and printer)	yes (yes)	yes (yes)
Logging to database (MDB, CSV)	yes	yes
System log (logging of system events)	yes	yes
User log (logging of all user interactions)	yes	yes
Tool for file administration	yes	yes
Quantity of communication channels	1	10
User authorisation	4	4
User / Usergroups	9	9
Client / Server ability	yes	yes
TCP/IP and DDE server	yes	yes
Send keyboard codes to 3rd-party applications	yes	yes
Project selection (for remote visualization)	yes	yes
Image controll by remote station	yes	yes
Send/receive time and date to/from remote stations	yes	yes
Switch language (even from remote station)	yes	yes
Form-color switch	yes	yes
Switch (text or symbol)	yes	yes
Button (text or symbol)	yes	yes
Dezimal (In- / Output) with up to 9 decimal digits	yes	yes
Analog beams (In- / Output)	yes	yes
Circle pointer	yes	yes
Text display	yes	yes
Line animation (scaleable)	yes (yes)	yes (yes)
Symbol animation	yes	yes
ASCII string	yes	yes
Chart	yes	yes
Line diagramm, Multimedia field	yes	yes
Launch external applications	yes	yes
Image format (adjustment of window size during runtime)	yes	yes
Price in Euro, excluding taxes (Options and accessories by request)	405 €	1.120 €
